425,000 HORSES AND MULES ARE SHIPPED EUROPE

Washington, Sept. 2.—To date 425,000 horses and mules have been shipped out of the United States for the European belligerents, and their purchase has been a big boon in the market for medium class horses, Department of Agriculture officials said today.

Government experts have been watching the records closely and they find that very few high bred horses have been exported with the result that prices for ordinary animals have increased.

Most of the horses have gone to England, but many shipments have been made to France and some to Italy. The supply is not being seriously depleted, government officials estimating that there are today approximately 21,000,000 horses and 4,000,000 mules in this country.

MANSIL TO RUN GROCERY STORE

Proprietor of Star Bakery is Planning to Install New Machinery.—Will Have Steam Oven.

The store adjoining the Star Bakery on East Main street, formerly occupied by Piche & Son has been rented by G. B. Mansil, proprietor of the bakery, who will open up a grocery department in his new quarters. This will not conflict or in any way interfere with the workings of the bakery next door.

Planning Improvements.

Manager Mansil says that he is planning some improvements which will not only add to the capacity, but will insure the best of sanitation in baking. He plans to install a steam oven, so that all bread will be baked by steam instead of the old way. Other apparatus will be installed, and all products turned out of the bakery will be made by the use of the most modern machinery for baking purposes. This will also insure cleanliness and the best of sanitation. Mr. Mansil, keen to the requirements of the trade, desires that his establishment shall be in keeping with the more progressive bakeries of the larger cities.

50 Submarines Caught in Nets

New York, Sept. 2.—An officer of the White Star liner Adriatic, which arrived from Liverpool today, declared that the German submarine which sunk the Arabic had been caught in a steel net and the U-boat's double crew were now prisoners in England. He added that within the past sixty days the British have captured no less than 50 German submarines.

Sir Herbert Holt, president of the Royal Bank of Canada, an arrival, said the members of the British financial commission coming to New York to effect a readjustment of the foreign exchange rate situation were to have sailed on the Adriatic, but changed their plans at the last minute. He added that he believed they would reach New York in the near future.

From another source it was learned that the commissioners planned to sail for New York by way of Canada.

"I see no occasion for alarm in the United States over the sudden drop in foreign exchange, and especially the English pounds sterling," said Sir Herbert. "I might say that, regardless of how low exchange falls, Great Britain must have the munitions of war she is securing from this country. Also I feel confident that the exchange matter will soon adjust itself."

Passengers said that from the time the Adriatic sailed at 2 o'clock on the afternoon of August 25 until 9 o'clock the next morning she was convoyed by three British destroyers.

After stating positively that the submarine which torpedoed the Arabic had been captured, the officer said that he could not disclose the place of capture, nor detail the circumstances. He said, however, that the U boat was of the largest and latest type in the German navy.

Major General Samuel Hughes, Canadian Minister of Militia and defense, was another arrival. He has been visiting the battlefront in France and in Flanders and training camps in England.

"We have every reason to be proud of the Canadians and the Yankees who are fighting with them in the trenches," he said. "I would not attempt to predict when the war will be over, but I can say that from our standpoint everything is now very satisfactory."

Sir Robert Borden, Premier of Canada, was also a passenger.

Six Arabic survivors arrived on the Adriatic. They were Mrs. Margaret Atkinson and her son, Arthur Atkinson; Mrs. F. C. Allison, W. Bathurst, Miss M. Christopenson, and John Doherty. Mr. Doherty said he was in his stateroom when he heard a shout and started for the deck. Before he had gone far, he said, he was shot many feet into the air and landed in the water.

Torcs Lese Four Transports

Paris, Sept. 2.—Four Turkish transports have been torpedoed by British submarines.

The announcement today was made officially as follows:

"In the Dardanelles the last week of August has been calm throughout on the southern front. In the northern zone British troops delivered successful attacks, which put them in possession of a hillock to the west of Buva Anafarta, which had been contested keenly."

"To the transport sunk on the 20th of August by one of our aviators in the anchorage at Aebashiliman it is necessary to add four transports torpedoed by British submarines; two of them at the same point, and two others between Gallipoli and Nagara."

"The guns of the battleships have hit several vessels anchored in the straits."

Grand Jury Could Not Find The Frank Lynchers

Marietta, Ga., Sept. 2.—The Cobb county grand jury investigating the lynching of Leo M. Frank near Marietta, reported late today that:

"We have found several clues, but we have been unable to find any one who could identify any party. We have done our best, under our oath, and we regret to state that we have been unable to find enough evidence to indict any one for this crime."

After it is stated that the jury had the active co-operation of Governor Nat E. Harris, the State Attorney General, Solicitor Herbert Clay and other officials of Cobb county, the report says:

"We have been unable to connect anybody with the perpetration of this offense, or to identify any one who was connected with it, although we have investigated the information furnished us by officers and other parties and have followed up letters signed and unsigned and to this end we have subpoenaed and examined many witnesses in an effort to disclose the perpetrators of this crime, but none of these witnesses could identify the parties."

"We find from investigation, that the officers of the law, and the citizens of our town and county, knew nothing of this crime until they heard of body being found near Frey's gin in this county. The city of Marietta and the county of Cobb were quiet before this trouble, are quiet now and all reports to the contrary are untrue."

Upwards of thirty-five witnesses were examined yesterday and today. They included the chief of police and other citizens of Atlanta, and individuals of every walk of life in Marietta. Anonymous letters, referred to in the report, still are being received by officials of Cobb county and others but the tendency now is to ignore them.

"Marietta is not in the frenzied state of turmoil that has been pictured," said Solicitor Clay today.

ODOM REQUESTS ALL TEACHERS TO ASSIST ADULTS

Well Known Educators of Newton County Approve Hoby's Plan for Educating Illiterate Adults.

County Superintendent of Education John M. Odom today gave his approval to a plan whereby teachers in this county will make a canvass of their districts some ten days before the opening of their schools and ascertain how many illiterate adults will agree to come to the building for lessons after the school children have been dismissed in the afternoon.

Mr. Odom requested that this plan be carried out in the county, and a goodly sprinkling of teachers consented to use their efforts along the suggested line. It is believed this plan will be of untold benefit in removing illiteracy in Houston county, if carried out.

J. R. Rutland, conductor of the Teachers Institute at the High School building, where these plans have been under discussion again called attention to the 2,000 illiterates over 10 years of age in this county. He directed attention to Mr. Hoby's talk a few days ago, in which this well known worker pointed out what is being accomplished in educating the adults in Dale county and elsewhere.

Prof. R. H. Southerland, speaking for Prof. C. W. Johnson, principal of the county high school at Columbia, who was unavoidably absent, first suggested the plan as outlined. Then O. O. Tolleson, supervisor of rural schools in this county, told of some of the advantages that will accrue to the teachers and the cause of education with the adoption of this adult canvassing plan.

It remained for the County Superintendent to give his endorsement, and request the assistance of the teachers, many of whom volunteered their services.

"I want to say that this has been the best institute we have ever had," said Mr. Odom, among other things.

OUR EXPORT TRADE IN DAN-

(Savannah News.)

The extraordinary fall in foreign export rates imperils our export trade. The fall is so great that the whole business world is startled. Not in the memory of the present generation have they been so low as now. At the present rate of exchange British merchants can hardly afford to buy in our market what they can get elsewhere and it is feared that many orders, orders for merchandise of one kind and another amounting to hundreds of millions of dollars will be cancelled. It isn't to be expected that Great Britain will pay a big premium for products in our market which she can obtain in other markets at less cost.

The effect of cancelled orders or the failure to place other orders would certainly be very serious not only upon our export business but also upon thousands of employes in factories, such for instance, as munition factories. The factories would be closed and the employes thrown out of work. The exchange rate will not seriously affect cotton for the reason that Great Britain cannot get the sort of cotton she must have elsewhere, and thus far the falling exchange rate hasn't affected its price.

Great Britain should establish a credit fund in this country. She should deposit gold or American securities. It is believed that at least \$2,000,000,000 of such securities are held in England. If a small part of them were deposited in New York as a back of credit the exchange rate would return to a point approaching normal. Recently a large amount of gold was shipped to New York but gold isn't wanted. There is as much in this country now as is desired. The effect of an abundance of it is to inflate prices, and inflation is one thing that isn't desired, particularly at this time.

The financiers of this country and Great Britain ought to be able to find a way to arrest the downward movement of the exchange rate. There is so much at stake that no time should be lost in finding a way to bring it back to a normal condition.

"GOLD IN LAND."

(Atlanta Constitution)

Real gold, mined, minted with the government's own stamp thereon—between \$300,000 and \$500,000 of it—is said to glimmer in the ground of Davidson county, N. C. That is the story credited to The Lexington Dispatch, and commented on as follows by The Charlotte Observer: "The Dispatch's informant gives in explanation that 'somebody had started the report that when the European war ended this country would not have a sufficient amount of gold coin to pay its obligations, all of which is misinformation scattered about among people who don't know and who don't read and think for themselves.' We had not supposed that a condition of affairs of that kind could exist in any enlightened community in North Carolina, and yet it is a matter of record that in Charlotte deposits of some intelligent people, both in city and county, were withdrawn from the banks, and possibly a portion of it still remains in hiding."

If the story of this buried treasure is true, the croakers and criers of "hard times" should emulate Br'er Rabbit's caution and "lie low," for in this particular instance the gold is "in the land" in fact as well as the

"HE KEPT US OUT OF WAR"

(Boston Herald.)

It is easy to foresee the slogan of next year's Wilson campaign. It will be the words in quotation marks over this article—assuming that they are still true. And that assumption requires increasing strength in the latest news from Berlin. If the European war ends, as it seemingly must before our ballots fall in 1916, and we have kept out of it; and if joint action of the American republics results in some sort of a stay of anarchistic proceedings in Mexico, and we have kept out of there, too, President Wilson will go before the country as a man who, though badgered and derided by Roosevelt and the whole military crowd, has kept the greatest republic in the world

and the dominant force in this hemisphere, out of hostilities into which nearly everybody else had fallen. This is evidently what he is working for. It is no unworthy ambition. Its realization will afford him no small place in history.

Anyone who thinks "He kept us out of war" would be a weak and unattractive campaign cry makes a very low estimate of the mind and heart of the American people. We can think of few greater accomplishments. One of these, perhaps, would be to bring the world war to a close, and in the mediatorial office the President's turn may yet come. With war no such chance would have been possible. Since there are times when loyalty to country, with every right-minded citizen, should greatly outweigh any concern over party welfare, there should be no faint response in any quarter to the tribute which all Americans owe to a President who, in these troublous times, "kept us out of war."

There is a man in Dothan who is a lower freight rates for us. The commercial club should be reorganized at once and this gentleman put at the head of it. The council could afford to pay his salary and let him get to work at it right away for we are about as badly imposed upon in the matter of freight rates as any town in the United States.

WOMEN FROM 45 to 55 TESTIFY

To the Merit of Lydia E. Pinkham's Vegetable Compound during Change of Life.

Westbrook, Me.—"I was passing through the Change of Life and had pains in my back and side and was so weak I could hardly do my housework. I have taken Lydia E. Pinkham's Vegetable Compound and it has done me a lot of good. I will recommend your medicine to my friends and give you permission to publish my testimonial."—Mrs. LAWRENCE MARTIN, 12 King St., Westbrook, Maine.

Manston, Wis.—"At the Change of Life I suffered with pains in my back and joints until I could not stand. I also had night-sweats so that the sheets would be wet. I tried other medicine but got no relief. After taking one bottle of Lydia E. Pinkham's Vegetable Compound I began to improve and I continued its use for six months. The pains left me, the night-sweats and hot flashes grew less, and in one year I was a different woman. I know I have to thank you for my continued good health ever since."—Mrs. M. J. BROWNELL, Manston, Wis.

DOTHAN STEAM LAUNDRY

TURN HAIR DARK WITH SAGE TEA

If Mixed With Sulphur It Darkens So Naturally No body Can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's treatment, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product called "Wyeth's Sage and Sulphur Compound" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive; besides, prevents dandruff, itching scalp and falling hair.

CONFERENCE TO MEET AT COLUMBIA, S. C.

Nation wide is the interest in tuberculosis, but each section has its own peculiar problems. To meet the various needs the National Association has organized a second series of annual conferences, the Southern to meet at Columbia, S. C. and others respectively at Indianapolis, El Paso, Springfield, Mass. and Albany, N. Y.

Eleven states besides Alabama will take part in the Columbia Conference. One of the most useful features of this meeting will be a medical clinic to show methods of diagnosis in early tuberculosis which should draw the attention of physicians. Dr. Chas. Minor of Asheville, N. C. will direct the clinic.

Word has been received of representatives from Montgomery and Mobile as well as Birmingham, some being physicians and

"Dodson's Liver Tonic" Starts Your Liver Better Than Calomel and You Don't Lose a Day's Work

Listen up your sluggish liver! Feel fine and cheerful, make your work a pleasure, be vigorous and full of action. But don't use any dangerous calomel because it makes you sick and you may lose a day's work.

Calomel is mercury or quicksilver which causes poisoning of the blood. Calomel crashes into your bile like dynamite, breaking it up. That's when you feel that awful nausea and cramping. Listen to me! If you want to enjoy the most, gentlest, liver and bowel cleansing you ever experienced just take a spoonful of harmless Dodson's Liver Tonic tonight. Your druggist or dealer will give you a 50 cent bottle of Dodson's Liver Tonic under my personal guarantee that each spoonful will clean your sluggish liver better than a dose of nasty calomel and that it won't make you sick.

Dodson's Liver Tonic is a real liver medicine. You'll know it's real because you will wake up feeling fine, your liver will be working, all those sweet and bowels regular.

Dodson's Liver Tonic is only a vegetable therefore harmless and can not salivate. Give it to your children. Millions of people are using Dodson's Liver Tonic instead of dangerous calomel now. Your druggist will tell you that the sale of Calomel is almost stopped entirely here.

Summary of War Status

British submarines have torpedoed four Turkish transports. Word of this feat of British under sea warfare came from Paris today.

The British steamer, Savona, 1150 tons, has been sunk in the zone of the German submarine vessel operations and the crew members of her crew are missing.

Latest British reports from Petrograd dwell on the Russian success in Galicia and record the capture of more than 7000 prisoners. German reports have indicated that the Russian advance has been resumed in this region after a temporary lull.

Recent claims by the Turkish war office that they have captured the British expeditionary force with heavy losses to the latter have been followed by a British official statement reporting the capture of an important tactical point in the Anatolia region and gaining the front occupied by the Australians.

The Russian fortress of Grodno seems to be nearing its fall. A noon today army headquarters at Berlin announced the outer forts had been taken.

Only artillery engagements and bomb fighting are reported from the front.

Belgium reports from Paris that France and England stand ready to assist Russia by detailing expert military strategists to the headquarters of Grand Duke Nicholas.

The German Admiralty promptly refuted the report of a British naval officer that a German cruiser and a British torpedo boat were sunk by a German torpedo boat off the Italian coast on August 1st. The cruiser is stated to be of the Aurora type. Vessels of this class displace 1600 tons.

NEAR SIGHTED

How much could you do if you were unable to see to read clearly? Spectacles adjusted according to the results of our scientific examinations may be just what your eyes need to help you in your studies. It is worth while to find out.

I have been wearing glasses fitted by W. C. Strickland for the past ten years and have always found them correct and well found that his price is reasonable.

ED. BELLES
Postmaster Dothan Ala.

I have always found the optical work done by W. C. Strickland to be exactly right. I have had him to fit my old and different members of my family with glasses and always found them to be correct.

GEORGE COTTON
Postmaster Dothan Ala.

I have been wearing glasses fitted by W. C. Strickland for several years and have always found them to be correct and at very reasonable prices.

A. C. CRAWFORD
Judge of Probate, Houston County, Dothan Ala.

When you need glasses you can't do better than to have them fitted by W. C. Strickland, the Optician. His glasses have always given me the best of satisfaction.

REV. J. R. MCCARTY
Treasurer Houston County

HOW ABOUT YOUR BOY?

The child with defective sight may never realize his handicap. You may wonder why he seems stupid and lacks interest in school. Spectacles fitted after a careful examination may change his career and make him a successful man.

The glasses fitted for me some time ago by W. C. Strickland have given me the best of satisfaction and it is with pleasure that I recommend him and his work in this optical line.

J. L. ACRE
Dothan Ala.

It is my policy to have things done at home and by home people and I always find that is the best, as I get better service. That's why I wear glasses fitted by our home man W. C. Strickland. They are correct.

W. J. BAXLEY
N. C. and Ex. T. P.

THE ABOVE ARE ALL BUSINESS MEN OF DOTHAN.

Besides the above I can give you the names of hundreds of others all over this country that I have fitted and that are living testimonials.

Each eye examined separately by the most scientific methods and if you don't need glasses we tell you so as quickly as if you need them—Remember the place and call in and let's talk it over.

PUT SULPHUR ON AN ITCHING SKIN AND END ECZEMA

Says this old time Eczema remedy is applied like cold cream.

Any irritation or breaking out on the face, arms, legs or body when warm, caused by itching or when the skin is dry and flaked, can be readily cured by applying a little cold sulphur, which is sold by all druggists.

It states that cold sulphur instantly relieves the itching and irritation and soothes the skin. It is a sure remedy for many cases of eczema, a painful and dangerous condition because of its persistent distressing property. Nothing has ever been found to take its place in treating the irritability and inflammation which attack the skin. While not at once establishing a permanent cure it never fails to relieve the itching and irritation and drive the Eczema away and it is often years later before any eruption again appears on the skin.

Those troubled should obtain at any drug store an ounce of cold sulphur, which is applied to the affected parts in the same manner as an ordinary cold cream.

SONG OF THE PEOPLE

By Frank L. Stanton.

The world is feelin' the changes, the People are thinkin' hard,
An' there ain't enough o' the kings now to make up a corporal's
guard;
The clock o' Time is tellin'—however the pendulum swings,
An' the song o' the People's swellin' over the courts of kings.

Once the king's courts were holy, an' the People, with grief an'
moan
Came with their cruel crosses to kiss the steps o' the throne;
World's gold for the king was shinin', the crown had many a star
No wonder the darkness wrapped 'em—they followed the kings
so far—

But it's just so much o' the shadows—so much o' the crowdin'
Night,
An' the people hear God sayin'—once more: "Let there be light!"
An' they rise from the long-time kneelin'—up from the humble
sod,
An' shout, in the dawn's revealin': "It's light by the grace
o' God!"

O that's the voice o' the People! It rises an' it rings,
An' the woman with the babe at breast the song o' the Mornin'
sings;
Joy in the song o' the harvest, with the war-clouds rolled away
An' Man, as the good God made him, God's king o' the new-
made Day.

O the world is feelin' the changes, an' I joy to see the dawn;
You'd almost think that the angels were cheerin' the People on!
For they see the light in the darkness; life's in the trampled
clod,
An' if God be with the People, they'll stand in the strength o'
God.

CROSSING THE BAR

Sunset and evening star
And one clear call for me!
And may there be no morning at
the bar
When I put out to sea.

But such a tide as moving seems
sleazep,
Too full for sound and foam,
When that which drew from out
the boundless deep
Turns again home.

Twilight and evening bell,
And after that the dark!
And may there be no sadness of
farewell
When I embark.
For tho' from out our bourne of
time and place
The flood may bear me far,
I hope to see my Pilot face to
face,
When I have cross'd the bar.
—Alfred Tennyson.

In Honor of Miss Henderson

To compliment Miss Bess Henderson, who leaves soon for Troy to make her home, Miss Luttrell McLennan entertained delightfully Thursday afternoon.

The home on Adams street was prettily decorated with bowls of salvia and potted plants.

Four tables were arranged for the games of cards which were merrily played by sixteen guests.

The prizes, dainty crepe de chine handkerchiefs, were won by Miss Marion Milligan and Miss Marguerite Ghent.

Miss Henderson was presented with one by her hostess.

Blackberry nectar was served during the afternoon and at the close of the games an ice course replaced the cards.

Miss McLennan's guests were: Miss Bess Henderson, Miss Minnie Cave, Miss Marion Milligan, Mrs. C. O. Golson, Miss Lucile Whiddon, Miss Florence Ellis, Miss Willie Pearle Carter, Miss Janie Farmer, Mrs. Ed Hawkins, Miss Eula Hitchcock of Dallas, Ga., Miss Marguerite Ghent, Miss Iona Peterman, Miss Helen Smith, Miss Nettie Leslie and Mrs. Eric Gellerstedt.

W. H. Frazier, of Dothan, after a short visit to his sister, Mrs. J. Lane Enzor, left this morning for Rufaula, where he will attend the marriage of Misses Hurt, daughters of Rev. W. P. Hurt, who will have a double wedding.

Mr. and Mrs. W. H. Frazier and daughter, Kennette, of Dothan, will arrive tomorrow to be the guests of Mr. and Mrs. Lane Enzor.

Prof. Roy McClure left this morning for Dothan to assume his duties as a teacher in the Dothan High School.

COCOANUT OIL FINE FOR WASHING HAIR

If you want to keep your hair in good condition, the less soap you use the better.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulitised cocoanut oil (which is pure and entirely greaseless), is much better than soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulitised cocoanut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

H. R. De Laye After Suffering for Nine Months from Serious Malady, Finds Quick Relief.

H. R. De Laye, of Birmingham, Ala., suffered from an acute stomach trouble for months. He went to doctors and got only a day or two of relief.

Mr. De Laye is head of De Laye's News Agency, and his malady meant both pain and less business efficiency. A cure became more and more imperative.

He read an announcement of Mayr's Wonderful Remedy. Now read what he says:

"I received your treatment last week and I used it according to directions. I am at a loss to find

words to tell you how much good it has done for me. I feel like a new man. The relief that your medicine has given me is wonderful. I have been to several doctors and they have only given me relief for one or two days."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.
